## SYSTEMATIC TRANSFER STRATEGY

The Systematic Transfer Strategy helps safeguards your wealth against the market volatilities and is available only if you have opted for a Regular Pay or Limited Pay policy with annual frequency as the premium payment mode. You may utilise this strategy to ensure a gradual exposure to equity from debt in a phased manner through equal instalments over the course of 12 months. This strategy allows You to systematically invest in equities while eliminating the need to time Your investments into the equity market.

On selection of Systematic transfer strategy at the Inception of the Policy following would occur:

- All Installment Premiums will be invested in Protector II Fund (debt oriented fund)
- All monies in Protector II Fund will systematically be transferred to Premier Multi-cap Fund (equity oriented fund) over the 12 month Policy period.
- The units will be automatically transferred from Protector II Fund to Premier Multi-cap Fund at the end of every month in the following manner

MONTH	NUMBER OF UNITS
MONTH 1	1/12 of the units available at the end of Month 1
MONTH 2	1/11 of the units available at the end of Month 2
MONTH 3	1/10 of the units available at the end of Month 3
MONTH 4	1/9 of the units available at the end of Month 4
MONTH 5	1/8 of the units available at the end of Month 5
MONTH 6	1/7 of the units available at the end of Month 6
MONTH 7	1/6 of the units available at the end of Month 7
MONTH 8	1/5 of the units available at the end of Month 8
MONTH 9	1/4 of the units available at the end of Month 9
MONTH 10	1/3 of the units available at the end of Month 10
MONTH 11	1/2 of the units available at the end of Month 11
MONTH 12	Balance Units available at the end of the Month12

Systematic transfer strategy if not opted at inception and chosen during the Policy Term, will only be activated on the next Policy Anniversary. The Policyholder would have two options once he/she chooses Systematic Transfer Strategy during the Policy Term

- Transfer all existing monies from Protector II Fund to any other fund. In this case, only the subsequent premiums allocated to in Protector II Fund would be systematically transferred to Premier Multi-cap Fund.
- Continue with existing monies in Protector II Fund. In this case, all monies including subsequent premiums, in Protector II Fund will be systematically transferred to Premier Multi-cap Fund.

## LIFE-STAGE STRATEGY

You can utilize this strategy to ensure that your policy adapts to your changing needs, depending on your life stage and age.

At policy inception, your premium, net of allocation charge is distributed between two funds, Premier Multi-cap Fund (equity oriented fund) and Protector II Fund (debt oriented fund), based on your attained age. As you move from one age band to another, your funds are re-distributed based on your age. The age-wise portfolio distribution is shown in the table.

AGE OF POLICYHOLDER (YEARS)	PREMIER MULTI-CAP FUND	PROTECTOR II FUND
Up to 30	70%	30%
31 – 40	60%	40%
41 – 50	50%	50%
51 – 60	40%	60%
61 – 70	20%	80%
71+	10%	90%

- On a quarterly basis, units shall be rebalanced as necessary to achieve the above proportions of the Fund Value in the Premier Multi-cap Fund and Protector II Fund. The re-balancing of units shall be done on the last day of each policy quarter.
- On selection of Life – stage strategy during the policy term, the existing funds / future premiums (if any) will be allocated as per the applicable proportion between Premier Multi-cap Fund (equity) and Protector II Fund (Debt), based on your age.

You can opt for only one of the Fund Management Strategies at any given time during the policy term.

Policy holder may use the change in portfolio strategy option to transfer amongst any of the three fund management strategies. Systematic transfer strategy if chosen during the term of the policy will be activated only on the next policy anniversary.

## NEW FUND OFFERING (NFO)

At PNB MetLife we are delighted to offer a new fund, the “Small Cap Fund (ULIF02819/02/24SMALLCAPFN117)”. This fund invests in small businesses that have significant potential for growth. Despite the potentially very high risk, small-cap funds in India are quite popular because of their potential for significant higher returns. The theory underlying these funds’ potential for increased returns is straightforward. A small business has a lot of room to develop and become more successful in the future, so its value might skyrocket in the long run. As a result, experts believe that small-cap fund investments are best suited for individuals with a high risk tolerance and long-term investment goals.

### **Policy shall not be called in question on ground of misstatement after three years.**

(1) No policy of life insurance shall be called in question on any ground whatsoever after the expiry of three years from the date of the policy, i.e., from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later.

(2) A policy of life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground of fraud:

Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured the grounds and materials on which such decision is based.

**Explanation I.**— For the purposes of this sub-section, the expression "fraud" means any of the following acts committed by the insured or by his agent, with intent to deceive the insurer or to induce the insurer to issue a life insurance policy:—

- (a) the suggestion, as a fact of that which is not true and which the insured does not believe to be true;
- (b) the active concealment of a fact by the insured having knowledge or belief of the fact;
- (c) any other act fitted to deceive; and
- (d) any such act or omission as the law specially declares to be fraudulent.

**Explanation II.** — Mere silence as to facts likely to affect the assessment of the risk by the insurer is not fraud, unless the circumstances of the case are such that regard being had to them, it is the duty of the insured or his agent keeping silence, to speak, or unless his silence is, in itself, equivalent to speak.

(3) Notwithstanding anything contained in sub-section (2), no insurer shall repudiate a life insurance policy on the ground of fraud if the insured can prove that the misstatement of or suppression of a material fact was true to the best of his knowledge and belief or that there was no deliberate intention to suppress the fact or that such misstatement of or suppression of a material fact are within the knowledge of the insurer:

Provided that in case of fraud, the onus of disproving lies upon the beneficiaries, in case the policyholder is not alive.

(4) A policy of life insurance may be called in question at any time within three years from the date of issuance of the policy or the date of commencement of risk or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground that any

statement of or suppression of a fact material to the expectancy of the life of the insured was incorrectly made in the proposal or other document on the basis of which the policy was issued or revived or rider issued:

Provided that the insurer shall have to communicate in writing to the insured or the legal representatives or nominees or assignees of the insured the grounds and materials on which such decision to repudiate the policy of life insurance is based:

Provided further that in case of repudiation of the policy on the ground of misstatement or suppression of a material fact, and not on the ground of fraud, the premiums collected on the policy till the date of repudiation shall be paid to the insured or the legal representatives or nominees or assignees of the insured within a period of ninety days from the date of such repudiation.

**Explanation.** —For the purposes of this sub-section, the misstatement of or suppression of fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer, the onus is on the insurer to show that had the insurer been aware of the said fact no life insurance policy would have been issued to the insured.

- (5) Nothing in this section shall prevent the insurer from calling for proof of age at any time if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal.
