Benefits in details

Maturity Benefit

On survival of the Life Assured till the Maturity Date, provided that the Policy is In-force status and all due installment premiums have been received in full by us, the Sum Assured on Maturity will be payable. Where, the Sum Assured on Maturity is the absolute amount of benefit guaranteed to be paid on Maturity and the amount payable will be 100% of the Total premiums paid¹.

The policy will terminate on payment of the Maturity Benefit amount.

Death Benefit

In the event of the unfortunate death of the Life Assured during the policy term provided that the policy is In-force status and all due installment premiums have been received by us in full as on the date of death, Sum Assured on Death will be payable. Where Sum Assured on Death is the highest of:

- 10 times of the Annualized Premium
- Sum Assured on Maturity which is the absolute amount of benefit guaranteed to be paid on maturity
- Basic Sum Assured which is the absolute amount assured to be paid on death
- 105% of the total Installment Premiums received as on the date of the Life Assured's death

Where, Sum Assured on Maturity is as defined in Maturity Benefit.

¹ Total premiums paid will be equal to all premiums payable during the premium paying term of the policy excluding taxes paid by the policyholder.

Death Benefit Option:

On death of Life Assured, the Company shall pay Death Benefit to the Nominee as Lump sum or level monthly instalments based on the option chosen by the Life Assured at the time of inception of policy. Once the option is chosen at inception, it cannot be changed during the policy term by the policyholder or the nominee (in an event of claim).

Lump Sum Option:

If the Schedule specifies that the Lump sum Option is in force, the Sum Assured on Death shall be paid in one lump sum

PNB MetLife – POS Suraksha

Level Monthly Income Option:

If level monthly income option is chosen by the Life Assured, the Company shall pay death benefit as level monthly income over 120 months, where monthly income factor is 1.10%. The first payment is made at the end of one month from the date of death of Life Assured.

The level Monthly Income shall be Monthly Income Factor * Sum Assured on Death, where Monthly Income Factor ^ is derived as 132% divided by income payout period i.e. 120 months.

The Company will not be liable to pay Sum Assured on Death if the death occurs during a waiting period for reasons other than accident.

^ The factor of 132% is the total income payable over the 120 months (i.e. income payout period), which is calculated by multiplying income payout period (120 months) with the monthly income factor of 1.10% i.e. $120 * 1.10\% = 132\%$.

For example:

Where Sum Assured on Death is Rs. 3,00,000, the Level Monthly income amount payable will be Rs.3,300. Monthly Income is calculated as $1.10\% * 3,00,000 = Rs.3,300$ (Total income paid over 120 months to the nominee will be Rs.3,96,000)

The policy will terminate with the payment of death claim amount.

Grace period

PNB MetLife – POS Suraksha

If installment premiums are not paid on their due dates, a grace period of 30 days (15 days for monthly mode) from the due date of unpaid premium will be allowed for payment of premium without interest. During the grace period the policy shall continue to be in force for all the insured events.

Premium Discontinuance

○ Policy in Lapse status

If the installment premiums for first two Policy years where Premium Paying Term is 5 years and three Policy Years where Premium Paying Term is 10 years are paid, the Policy shall acquire a surrender value. If you discontinue the payment of premiums before your policy has acquired a Surrender Value, your Policy will lapse at the end of the grace period and the Death Benefit, will cease immediately and automatically and no benefits will be paid when the Policy is in lapsed status.

You can revive your lapsed policy for its full coverage within two years from the due date of the first unpaid installment premium, by paying all outstanding premiums with the interest, as applicable. The Company may change this interest rate from time to time.

○ Policy in Paid-Up / Reduced Paid-Up Status

If the policy has acquired a surrender value and no future installment premiums are paid, the policy shall continue as a Paid-Up policy with reduced benefits or you shall have the option to surrender the policy.

If the policy is in Paid-up status the reduced benefits are payable as given below:

Benefits	Payout
Death Benefit	Sum Assured on Death x (Number of Installment Premiums paid / Number of Installment Premiums payable during the Premium Payment Term). At any point in time the minimum death benefit shall be 105% of all premiums paid as on date of death.
Maturity Benefit	Paid-Up Sum Assured on Maturity is the absolute amount of benefit guaranteed to be paid on maturity, which is 100% of total premiums paid till the policy becomes paid-up. The total premiums paid are the premiums excluding taxes.

Surrender Value

If all due premiums have been paid for at least 3 full policy years (2 years in case of Premium Paying Term 5 Years), the policy would acquire a Surrender Value. The Surrender Value is equal to maximum of Guaranteed Surrender Value and Special Surrender Value.

Guaranteed Surrender Value (GSV) = GSV Factor multiplied by Total Instalment Premiums paid.

The total premiums paid considered in calculation of GSV are Premiums excluding taxes, if any.

Special Surrender Value (SSV)

SSV is calculated as Paid-up Sum Assured on Maturity x SSV Factor

SSV factor is calculated as v^n valued at 8.5% p.a., where 'n' is the outstanding term to maturity from the date of surrender.

PNB MetLife – POS Suraksha

The policy will be terminated on payment of surrender amount.

Revival

A Policy which has Lapsed or is in Paid-up Status may be revived during the Revival Period and before the Maturity Date by paying all the outstanding Installment Premiums in full with interest at the rate specified by Us from time to time. Revival of the Policy is subject to Our Board approved underlying policy.

We will obtain the prior approval of the IRDA of India for any changes to the underlying formula for calculating the rate of interest applicable.

A Policy that has been Surrendered cannot be revived.
